Product Description

Unlike our other CBD products which are made from a full-spectrum hemp extract, these 100% Vegan Gummies are made from pure CBD isolate, which means they are 100% THC-free*. Fresh, mixed-berry fruit flavors sourced from natural ingredients.

No animal products
Non-GMO
Organic
Laboratory tested for safety, purity, and potency
Free from pesticides, solvents, and chemical fertilizers
25mg CBD per gummie

Premium Jane Vegan CBD Gummies are potent, with each gummy containing 25mg of 99% pure CBD isolate (20 gummies per container = 500mg total). A delicious, relaxing, and ultra-discreet way to consume your CBD; carry a baggie around with you and enjoy as needed!

In terms of dosing, we recommend you start off small (a single gummy or even half of a gummy) and gauge the effects. If no results, increase the amount consumed until positive results are noticed. (As always, it's important to understand that everyone's Endocannabinoid System is unique, and therefore not everyone will experience the same results).

[For more information on potency and/or dosing, visit our FAQ page or feel free to message us directly.]

These gummies are NOT formulated to treat or diagnose any existing medical condition. Moreover, none of the above statements have been monitored or approved by the FDA. Gummy color may vary slightly from batch to batch.

Ingredients: Organic evaporated cane juice, organic corn syrup, organic white grape juice concentrate, pectin sodium citrate, citric acid, ascorbic acid, natural flavors & colors (annatto, turmeric, grape juice concentrate, red fruit juice concentrate)**

* Contains less than .02% THC

**[Packed in the same facility as peanuts, tree nuts, wheat, soy, and milk products]

Mike Miller

When the website described these as 'melty' there were right! But they are so much easier to swallow than regular capsules... definitely worth it.

Andy Young

I've never felt comfortable using a CBD oil, so these capsules are ideal for me and those who feel a little intimidated by the oil.
